new vibrations from an old master

RCA FreeForma: stereo for freedom- loving people

Shouldn't *you* say how your new stereo should look? FreeForma is four cubes you can arrange anyway you want. Change your room around, FreeForma changes with you. Try four cubes in the middle of the room, like a coffee table. Or maybe you'd like wall-to-wall stereo this week? FreeForma's for freedom-lovers. Feel free.

RCA QUANT/AURAL SOUND:

Sound no longer depends on the shape of the cabinet. RCA's new Quant/Aural system is the inside secret of this new shape in sound. And listening is believing. Hear how our matched components and revolutionary air-suspended Quantaire speakers bring you deep, rich bass notes and clear, bright trebles. You could buy this great looking stereo for its sound alone.

Cube No. 1 — FreeForma Chassis. SRB 1098

Our 60-watt stereo amplifier backs up an FM/AM/FM Stereo tuner with AFC for Fade-free FM reception. Our 'Signal Sentry' indicator light lets you know which FM stations are broadcasting in stereo. Panel controls include: Tuning, Balance, Volume Function Selector (includes Tape and Phono), and full-range treble and bass with compensator to ensure full bass sound, even at low listening levels. Provision has been made for tape (in and out), phono, and external FM and AM connections. There is ample record storage space (up to 25 albums!) and sliding front panels.

Cubes 2 & 3. RCA Quantaire Speakers

Quantaire speakers are mounted on elastomer rims which provide greater cone flexibility. This extra flexibility brings you clear trebles and basses that won't fade away. Each cube holds a woofer and a tweeter to cover the whole sound spectrum. Thanks to the air-tight construction, you get no distortion and back-wave cancellation from the rear of the speaker enclosure.

OPTIONAL CUBES

Choose an automatic record changer, an 8-track stereo cartridge player, or a stereo cassette recorder/player. FreeForma is for freedom-lovers. Feel Free.

Record Player Cube SVB 1098

The player unit flips through 270 degrees — operates on its side or on its base. Garrard 2025TC record player has a pencil-thin ultra low mass tubular tone arm, Astatic 209 high compliance ceramic cartridge with flip-over diamond stylus. The tone arm pressure is pre-set for correct tracking. Automatic shut-off, exclusive built-in "click" suppressor, muting switch to retard mechanical noise, interchangeable spindles, balanced, oversize turntable. Professional cueing lever/pause control allows you to start or stop a record in any groove. And the automatic shut-off remembers even if you forget.

8-Track Stereo Tape Cartridge Player Cube SYB 1098

Play your favorite 8-track cartridges through this unit. The built-in tape cartridge player features "instant play" — the mechanism is activated when a cartridge is inserted. Withdrawing the cartridge turns the instrument off. Automatic or manual track selection. A single 8-track tape cartridge will play up to 80 minutes of uninterrupted music. There's plenty of cartridge storage space too!

Stereo Cassette Recorder/Player STB 1098

Solid state stereo cassette unit features push-button controls for play, record, fast forward, fast rewind, stop and Cassette Eject. Constant speed AC-operated motor. You can easily judge correct recording and playing levels, thanks to the separate VU meters for each channel. Record yourself and your friends in stereo through the pair of Dynamic tubular stereo recording microphones. Provision for cassette storage.

Colors:

Pumpkin Orange with Snow trim. Speaker Cabinets: Pumpkin Orange with Burnt Sierra grille cloth. White with Natural Walnut trim. Speaker Cabinets: White with Golden Rust grille cloth.

Dimensions:

All cubes are a true 19½" x 19½" x 19½".

The RCA logo is located in the bottom left corner of the page. It consists of the letters "RCA" in a bold, stylized, sans-serif font. The letters are black and have a slight shadow effect.
