SHORT-WAVE STATION LIST

RCA Victor developments have resulted in a tremendous improvement in short-wave reception. Due to a variety of natural causes, and frequent changes in station schedules, short-wave programs cannot be tuned in with the same regularity as standard broadcasts. Atmospheric changes, location of storms, the season of the year, time of day and night, and number of sun spots all affect the strength and clarity of short-wave programs.

If you are unable to get the program you want, do not blame your radio; try the other short-wave bands for stations that may be "coming through." Always tune slowly and carefully.

Thousands of tiny experimental stations throughout the world operated by "amateurs," offer opportunities for tuning-in real short-wave thrills.

LISTA DE ESTACIONES EMISORAS DE ONDA CORTA

Los adelantos introducidos por la RCA Victor han traído como resultado una extraordinaria mejora en la recepción de onda corta. Debido a una variedad de causas naturales, y a los frecuentes cambios en los horarios de estaciones, no es posible sintonizar los programas de onda corta con la misma regularidad que los de onda larga. Los cambios atmosféricos, la ubicación de las tempestades, la temporada del año, la hora del día y la noche y el número de manchas solares, son todos factores que afectan la potencia y claridad de los programas de onda corta.

Si no puede Ud. captar el programa que desea, no eche la culpa a su aparato de radio. Pruebe las otras bandas de onda corta para ver si puede captar otras estaciones. Sintonice siempre lentamente y con cuidado.

Miles de diminutas estaciones experimentales por todo el mundo, manejadas por "aficionados," ofrecen muy buenas oportunidades para gozar de los deleites que brinda la sintonización de onda corta.

CLASSEMENT RADIOPHONIQUE DES STATIONS ONDES COURTES

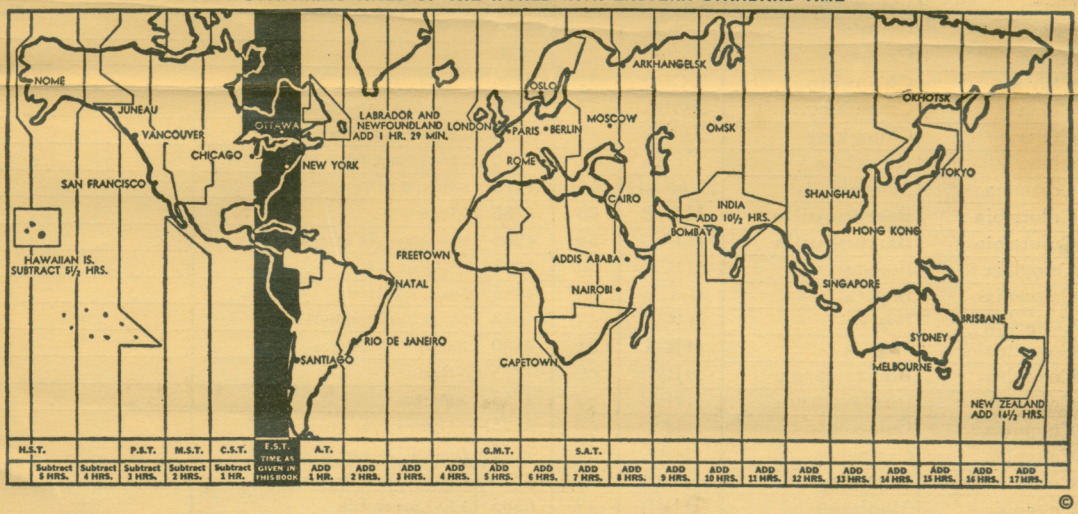

Les recherches techniques de la RCA Victor ont permis d'améliorer énormément la réception sur ondes courtes. Un grand nombre de causes naturelles et des changements fréquents d'horaire d'émission ne permettent pas d'accorder les programmes sur ondes courtes aussi facilement et régulièrement que ceux diffusés sur petites ondes. Le temps, les conditions atmosphériques, le lieu des orages, la saison, le jour, la nuit, le nombre des taches solaires affectent l'intensité et la clarté des programmes sur ondes courtes.

Si vous ne pouvez pas obtenir le programme que vous désirez, ne vous en prenez pas à votre poste récepteur, essayez une autre bande d'ondes courtes afin de capter les stations qui peuvent être reçues à ce moment. Il faut toujours accorder le poste lentement et avec soin.

Dans tous les coins du Monde, des milliers de petites stations d'expérimentation dirigées par des "amateurs" vous offrent un choix de programmes variés et captivants.

DAYLIGHT SAVING TIME

Many stations operate on daylight savings time during the months of May, June, July and August and start their programs one hour earlier and sign off one hour earlier than the hours listed herein.

LA HORA DE VERANO

Muchas estaciones funcionan por la hora de verano durante los meses de mayo, junio, julio y agosto, empezando sus programas una hora más temprano, y terminando también una hora más temprano que las horas aquí indicadas.

L'HEURE DE PRINTEMPS

Bien des stations fonctionnent d'après l'heure d'été pendant les mois de mai, juin, juillet et août, et commencent leur programme une heure plus tôt et les terminent une heure plus tôt que les heures qui y sont indiquées.
